Subject: RE: Customer service follow up from January 12

Thank you, Dianna – They were FABULOUS!!! Not only did they handle the many different kinds of drinks available, and brought to them by the guests, they were friendly, personable and keep things moving. I never saw a big line build up, and people were very appreciative of their wonderful service. I was particularly appreciative of them helping me set things up for the party. They not only took care of their own stuff, they willingly helped out in setting up a few things around the hall. They were simply fabulous. If you ever need a reference or recommendation, please contact me. Thank you again, and it has been a great pleasure working with you. Please give them my warmest and deepest thank you!!!!

All the best to you and your team for 2019.
